

LATTICES

The Lattice is an ultramodern, high performing acoustic product that offers outstanding absorption and visual impact.

Choose from a selection hand crafted acoustic lattices. The lattice range has been designed to offer optimal acoustic performance while adding intrigue and style to any interior. Manufactured from recycled PET fibre to ensure a sustainable acoustic solution. Choose from 20 colours to match any interior. Slightly smaller than its big brother Canopy, perfect for above workstations and when ceiling space is a premium.
