

AMBIANCE BAFFLE

The Ambiance Baffle offers exceptional Class A acoustic performance in a wide range of fabric options.

The Ambiance Baffle is manufactured from a 40mm Glass Wool core that is Class 0 / EN Class 1 fire rated faced with industry leading acoustic fabric finish. It is a premium quality, Class A acoustic product that can be suspended from most ceiling soffits. The Ambiance baffle is available in over 200 fabrics to ensure your acoustic ceiling treatment matches your interior. Ambiance baffles are suspended using spring fixings and wire hangers for ease of installation. The glass wool used to manufacture this product is recycled glass fibre.
